

LOCKHEED MARTIN

Suppliers Name: IMR Metallurgical Services- Louisville LLC
Suppliers Address: 4510 Robards Lane
Louisville, KY 40218-4537

Date: 8 February 2024

Supplier Number:
Subject: Special Process Survey (Testing)
Attention: Mr. Jason Sponel

Survey Request Number: 9000177584

Thank you for the courtesy and cooperation extended while performing the subject activity.
Listed below is the status from our survey of your facility:

<u>Specification Number</u>	<u>Status</u>	<u>Comments</u>
ASTM F3318-18	Approved	Chemical Composition (Powder); Chemical Composition & Mechanical Testing Additive Manufacturing Finished Part, AISi10Mg

This approval does not add or delete contractual requirements. Special process approvals must be verified and indicate "approved" at the time the special process is performed. All quality systems and/or special process approvals and expirations are listed in Exostar. If you do not have an Exostar account with Lockheed Martin, it is your responsibility to check with your contractor to verify approval status. Future changes in your name, location, quality system/special processes, or any change that has or is likely to have impact on product integrity; reliability or quality will require formal notification to Lockheed Martin.

Lockheed Martin Space Systems Company reserves the right to:

- 1.) Re-survey at any time or cancel approval at any time.
- 2.) Require a special survey in connection with the specific contract.
- 3.) Require formal corrective action for associated non-conformances as a contingency to maintaining approval.
- 4.) Have a Lockheed Martin representative inspect at any reasonable time the facility, equipment and process controls (if applicable), and any work or material on any Lockheed Martin Space System company contracts.

Thank you for your cooperation.
